### 13. Educational Contributions

#### Direct Teaching/Precepting/Supervising

- 2024 – Current      Course Instructor  
PHP 0700: Global Public Health Interventions  
Brown University School of Public Health  
*Designed and taught an undergraduate course that provides an in-depth analysis of global health interventions through a historical, ethical, and strategic lens. Students explore case studies ranging from malaria eradication to the implications of decolonizing global health, focusing on key themes like equity, sustainability, and the role of international organizations. The course emphasizes practical application through a concept-mapping project, policy briefs, and advocacy infographics, preparing students to critically evaluate and implement effective public health solutions globally*
- 2023 – Current      Course Instructor  
PHP 1796: The Historical Determinants of Public Health  
Brown University School of Public Health  
*Designed and taught a course at Brown University that critically examines the historical roots of public health challenges, such as health disparities, vaccine hesitancy, and stigma, through the lens of the COVID-19 pandemic. The course integrates historical analysis with contemporary issues to empower students to develop evidence-based solutions and advocate for impactful health policy.*
- 2022 – Current      Course Instructor  
Lessons (Un)Learned in Public Health and Humanitarian Response: An Historical Perspective  
Brown University School of Public Health  
*This course for undergraduate/graduate students explores the historical, sociopolitical, and operational challenges in public health and humanitarian crises. Through case studies of seminal events, the course critically examined recurring themes, failures, and successes in humanitarian response to inform and improve future public health practices.*
- 2023 – Current      Exploratory Academic Advisor  
Brown University  
Providence, Rhode Island  
*Served as a faculty advisor for new undergraduate students at the university.*
- 2018 – 2022          Medical Student Elective Preceptor  
Columbia University Vagelos College of Physicians and Surgeons, NY, NY  
*Clinical preceptor for medical student electives in emergency medicine. Responsibilities include direct oversight of a senior medical student on clinical shifts and regular meetings to discuss career goals and projects.*
- 10/2019,

#### Educational Administration and Leadership

Spring 2025 Curriculum Developer and Course Director  
PHP 0700: Global Public Health Interventions  
Brown University  
Providence, Rhode Island  
*I created a novel curriculum for an undergraduate course on global public health history and  
interventions.*

Spring 2024 Curriculum Developer and Course Director  
‘The Historical Determinants of Public Health’  
Brown University School of Public Health  
Providence, Rhode Island  
*I created this novel curriculum to use the COVID-19 pandemic as a prism to better outline and  
understand the historical contributions to current public health policy. This course has received  
the Race, Power, and Privilege designation, which recognizes courses that center issues of race and  
examine issues of structural inequality, racial formations and/or disparities and systems of power  
within a complex, pluralistic world.*

2023-Current Public Health in Practice Seminar Series—Developer and Director  
Brown University School of Public Health  
*This seminar series was created to broaden student exposure to experts working in ‘real-world’  
public health. I recruited notable public health journalists, corporate medical directors, and health  
commentators to counsel students on career possibilities in public health.*

Fall 2023 Course Director  
“Lessons (Un)Learned in Public Health and Humanitarian Assistance: A Historical  
Perspective”  
Brown University School of Public Health  
Providence, Rhode Island

Fall 2021 Course Director – Public Health and Humanitarian Action  
Fall 2020 Mailman School of Public Health at Columbia University  
Fall 2019 New York, NY

*Lead the Public Health and Humanitarian Action (PHHA) course in the Program on Forced Migration and Health at Mailman School of Public Health. This course is the only required course for all students in the Public Health and Humanitarian Action certificate and serves as a survey of the biggest issues facing the intersection of global health challenges and humanitarian response. Developed and lead sessions and coordinate with guest lecturers throughout the semester.*

01/2019 – 05/2019 Curriculum Developer and Course Director  
“Lessons (Un)Learned in Humanitarian Assistance: A Historical Perspective”  
Sciences Po Paris School of International Affairs  
Paris, France  
*Developed, as part of a faculty exchange between Columbia University and Sciences Po, and directed a graduate-level course examining the history of humanitarian action. Using seminal events in humanitarian response, the class evaluates the themes and controversies that have created the modern humanitarian sector and requires students to propose solutions to improve humanitarian response. Responsible for the expanded conceptualization and redesign of this course, including course structure and content.*

2018 - 2022 Emergency Medicine Representative  
Steering Committee for Program for Education in Global and Population Health  
Columbia University Vagelos College of Physicians and Surgeons  
New York, NY  
*Represent the Department of Emergency Medicine in development of global programs at the medical school, including trainings, research and international clinical experiences for students and faculty.*

Spring 2022,  
Spring 2021,  
Spring 2020,  
Fall 2019,  
Spring 2018,  
Spring 2017 Curriculum Developer and Course Director  
“Lessons (Un)Learned in Humanitarian Assistance: A Historical Perspective”  
Columbia University Mailman School of Public Health  
New York, NY  
*This graduate-level course examines the history of humanitarian action to reveal that many struggles confronting the sector today are neither entirely novel nor unique. Using seminal events in humanitarian response, the class evaluates the themes and controversies that have created the modern humanitarian sector and requires students to propose solutions to improve humanitarian response. Responsible for the conceptualization and design of this course, including course structure and content.*

2014 Curriculum Developer and Conference Director  
Patagonia Remote Emergency Medicine  
*Created a training program for an emergency medicine conference in Patagonia, Argentina. This included teaching sessions on the use of emergency ultrasound and creation of a mass-casualty trauma exercise. Participants included medical professionals from southern Argentina.*

#### Instructional/Educational Materials used in Print or other Media

2011-2012 Curriculum development  
Program: Systems Improvement at the District Hospital and Regional Training of  
Emergency Care (sidHARTE)  
Kigutu, Rwanda  
*Served as a consultant in the development of an emergency medicine curricula and  
training course for district physicians.*

#### Community Education

2017 Doctors Without Borders/ Médecins Sans Frontières  
'Forced from Home' Exhibit Guide  
Seattle, USA  
*Volunteered as tour guide for a week-long immersive exhibit that raised awareness about  
the experience of asylum-seekers and refugees.*
